

OPS 1.1.011		OPS Inspector Handbook
Exit Row Seating Program		Revision 3
Review Process		05 Mar 2014

1. Objective

- 1.1. This directive provides OIs with a job aid containing guidance for determining operator compliance with the requirements for Exit Row Seating Program.

2. General

- 2.1. ANR.OPS 487A and 497A and AP 1.1.011 "Exit Row Seating" regulate exit seating in aircraft operated by commercial air transport operators. These regulations prescribe requirements relating to the seating of operator passengers near emergency exits. OIs must ensure that air operators' manuals, as appropriate, contain the applicable portions of the operators' exit seating program.

3. Reference Material, Forms & Job-Aids

- 3.1. Regulatory Requirements
 - 3.1.1. ANR.OPS 487A, 497A
- 3.2. Reference Material
 - 3.2.1. AP 1.1.011 - "Exit Row Seating".
- 3.3. Job-Aids
 - 3.3.1. F 1.1.011-1 – Exit Row Seating Review Checklist

4. Process

- 4.1. OIs should use the checklist in F 1.1.011-1 which as guidance for determining operator compliance with ANR.OPS 487A, 497A and AP 1.1.011 "Exit Row Seating".
- 4.2. Procedures should be submitted as manual sections/training program sections/bulletins, etc. as appropriate to the individual operator.
- 4.3. The OI should check for applicability and manual format and ensure that all applicable publications are revised.
- 4.4. The procedures must address the following regulatory requirements, and must address when, how, and by whom the items will be performed.
