Limitations and Conditions :

1. This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined by the installer that the interrelationship between this change and any of those other previously approved modifications will produce not adverse effect upon the airworthiness of this aircraft.
2. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.
3. Airplane Flight Manual Supplement No. 3715-1001-00FG is part of this STC.
4. Instructions for Continued Airworthiness Supplement No. 3715-1008-00ZR is part of this STC.
5. Each structural repair of this installation requires CAAI approval, until the Structural Repair Manual (SRM) is approved.
6. Operation of the aircraft with this modification is limited to 7000 cycles. Refer to CAAI Letter 20895218.

Certification Basis:

Refer to CAAI Issue Paper G-1.

Equivalent Level of Safety

14 CFR §25.251(b), "Vibration and Buffeting", reference CAAI Issue Paper F-1
