Limitations and Conditions :

- 1) This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined by the installer that the interrelationship between this change and any of those other previously approved modifications will produce not adverse effect upon the airworthiness of this aircraft.
- 2) If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.
- 3) Instructions for Continued Airworthiness Supplement No. DG203-ICA001, Rev. -, dated February 15, 2018, or later CAAI approved revision, is part of this STC.

Certification Basis:

- 1) The type certification basis for the Boeing 737-800 Series aircraft is shown on TCDS A16WE for parts not changed or not affected by this change.
- 2) 14 CFR Part 25 of the Federal Aviation Regulations as amended by Amendments 25-1 through 25-77, except where superseded by the following sections of Part 25 as amended by Amendments 25-1 through:

25-23 (Section 25.1355)

25-41 (Section 25.1351)

25-54 (Section 25.1529)

25-63 (Section 25.25)

25-72 (Section 25.1581)

25-113 (Section 25.1431)

25-123 (Section 25.899, 25.1301, 25.1390, 25.1353 and 25.1357)

25-137 (Section 25.1302)

Based on 14 CFR §21.101(g) for changes made to TCs applicable provisions of 14 CFR Part 26 are included in the certification basis.

For any future 14 CFR Part 26 amendments, the holder of this TC must demonstrate compliance with the applicable sections: Part 26, Amendments 26-0 through 26-6

Compliance has been found for the following regulations at Amendment 26-0: §26.11
